

A Almighty God, there is no one like You, You have existed forever and created all that exists, no man nor his creations can make that claim.

Men may come and in truth all men having been created ourselves are finite beings so too are the creations of man for we are not gods.

Elohim, I call on Thee for Thy mercy, on Thy Son for forgiveness and Thy Holy Spirit for comfort, for as God, Thy grace is purifying and truly everlasting in nature.

Nurture me Lord Jesus, Son of God, with Thy healing and redeeming grace, for without Thy merciful sovereignty in my life I shall be lost forever.
