

CHILDREN OF WAR

Come Lord Jesus, we place these innocents in Thy hands during this time of war.
Holy Spirit infill them with Thy grace and protection, bring them home to you.
In You, oh Lord, is their only hope and protection, bring them home to You.
Love Incarnate, you paid the price for our salvation, infill them with Your presence.
Deity of deities, there is nothing that is beyond Your capabilities or Thy Will.
Redeem oh Lord these innocents, hold them close as you did in former times.
Each day of terror, wipe free with You presence in their lives lord Jesus.
Now and in our final hours let us feel the touch of Your presence and love.

Omnipotent Creator, let not the follies of man's greed enslave innocent hearts.
Freedom without Your presence in our hearts, is slavery masked and enticing.

We are bereft without You and we fail all too often to recognize how harmful greed is.
Acept oh Lord, our supplications on behalf of our children during this atrocity of man.
Return our children to Your bosom, erase their fears from day to day for we are unable.

CHILDREN OF WAR

Christ, glorified so of God we place our children I your hands.
Holy Spirit infill our children with Your grace and peace.
In You oh God is their salvation, if You must, take them home with You.
Love incarnate, fill them wit Your presence that they may find peace.
Divine and eternal God, protect them as only You can.
Remember not our failings Lord, for they are many, and forgive us.
Employ us I thy great works that we may be the vessels on earth of your Love.
Now in the hour of our travail, grant us the solace of Your divine Love, oh God.

Our faults are many and bring travail often unceasingly, but Your grace saves all.
Fountain of Life, oh God, grant eternal life to all the innocents caught in this war.

Without Your presence in our lives we are doomed, take us into Your Sacred Heart
All things are possible with You oh God our creator, reclaim our souls we ask Thee.
Redeemer, Son of God enter into our hearts, infill us with Your grace and peace.
